

Newhaven – Overview of our provision

Newhaven is a large, dynamic and creative organisation which has a long and very successful record of meeting the needs of challenging students and changing educational agendas.

Newhaven is a complex provision set on 3 sites including a teaching base in the Queen Elizabeth Hospital. The vast majority of learners have a history of poor attendance coupled with failure and rejection within education and social settings. Most students either have been, or are, at serious risk of permanent exclusion or are unable to access mainstream education due to medical reasons.

Newhaven Gardens Campus includes an Assessment centre, Pupil Referral Unit and NEST, our provision for young people with tier 3+ mental health difficulties. Newhaven King's Park Campus is a school for students with a diagnosis of autism and severe mental health needs.

Newhaven aims to provide 'achievement and enjoyment through learning' and is proud of its reputation in providing suitable education for young people with a wide range of needs who are not in mainstream education. We work hard to ensure that we provide a safe and very supportive environment, which is able to give an inclusive yet personalised education to suit the needs of the learner. We are equally as proud of our academic success as of our supporting and nurturing environment, which enables our young people to develop self-respect, tolerance, personal values and beliefs. We aim above all to provide our students with a route to becoming successful, engaged adults who are able to participate in the fullness that life has to offer.

The senior management team at Newhaven are looking to appoint conscientious and enthusiastic staff of who believe in creating a fairer world, are up for a challenge and are willing to try out new ideas. We take pride in being a really friendly, supportive and innovative workplace and we are committed to offering colleagues the opportunity to develop long lasting careers with us.

We look forward to receiving your application and the successful candidate will join the team of staff at our school who are determined to give our students the best opportunities possible to become successful, responsible citizens with bright futures.
